

## Purpose of the association

It is mainly about supporting the current change of dimension in the sense that the newly emerging order can gently replace our old structures.

In order to pursue this purpose – with regard to the sacred geometry – a «Light Net» is created consisting of Light Points and Flowers of Light, which cause a positive change.

## History of the association

Founded in 1999. In August 2001, members of our association received a message from the Ascended Master SAINT GERMAIN to build a new light net. Thereby exact details were given, how this work should look like in accordance with the laws of creation (sacred geometry). It would have to be points of irradiation for light energy, which, starting from a center point (Bichwil), would all interconnect and form an entire light field over time.

The recall of earlier messages awoke, where it was said, among other things, that it is largely dependent on us (humans), what happens on Earth, because the free will of man is respected by the higher spheres.

So the challenge for this task was joyfully accepted and immediately tackled.

## Annual program

- 5 - 7 building sessions
- 3 - 4 meditations / visualizations
- Saint Niklaus evening
- general meeting

## Membership

We look forward to welcoming you as a member of our association. Membership is open to anyone interested.

We would be happy if you actively participate in the construction of the Light Net or if you simply support it ideally.

## Registration

By phone: +41 (0)71 955 95 33  
By Email: [info@lichtnetz.ch](mailto:info@lichtnetz.ch)

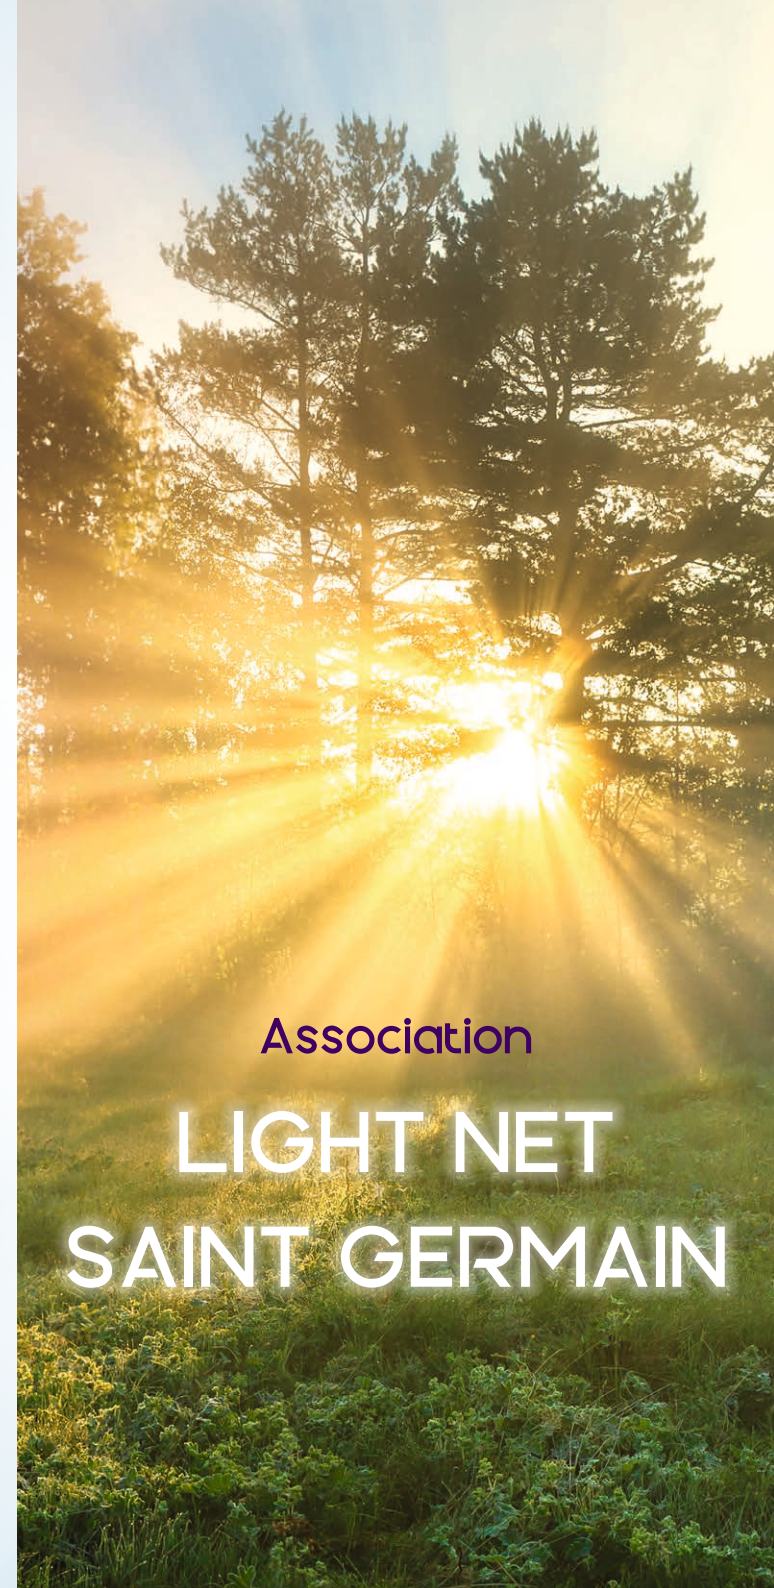

or write to the following address:

Verein Lichtnetz Saint Germain  
Dorfstrasse 28  
CH-9248 Bichwil

On our homepage  
[www.lichtnetz.ch](http://www.lichtnetz.ch)  
you will find a declaration of membership and further information.

## LIGHT NET SAINT GERMAIN – Project Flower of Light

Schematic diagram Light Net area Western Europe

## Project Flower of Light

Since 2001, the members of the association meet several times a year to further develop the Light Net. The meetings are voluntary and take place mainly in Switzerland as well as in neighboring countries.

With each Point of Light an artificially generated place of power is created.

## Creation of a Point of Light

- A Point of Light is a place of power
- A flower of light consists of a Center Light Point around which another eight Points of Light are grouped
- This creates a «Flower of Life», with an area of about 10 km<sup>2</sup>
- Around the Center Light Point, further points are grouped at certain distances
- The distances are chosen so that these points all interconnect
- Each Point of Light increases the oscillation of the earth

The material is financed from the association's treasury and from donations.

Donations are always welcome!
